

SCOTT
ARCHERY

YOUR SHOOTING STYLE, YOUR SCOTT RELEASE

FOR MORE THAN 35 YEARS, SCOTT INNOVATIONS
HAVE BEEN PART OF MANY SUCCESS STORIES –
BOTH IN FRONT OF THE ROAR OF TOURNAMENT CROWDS
AND IN THE QUIET OF THE WOODS.

WHETHER YOU ARE AFTER ANTLERS OR HARDWARE,
SHOOT THE RELEASE THAT SAVVY HUNTERS AND
TOURNAMENT WINNERS SHOOT. SHOOT A SCOTT.

SINGLE
CALIPER

The single caliper head is a robust and reliable release. With few moving parts, the rugged design of the single caliper performs in the worst weather. The compact head delivers crisp activation shot after shot.

DUAL
CALIPER

Dual caliper design delivers symmetrical distribution of friction. The loop is released cleaner and with less torque. A wide range of trigger adjustments offer increased options to customize the release for the individual archer.

HYPER
JAW

Patent pending HyperJaw™ technology from Scott features independent operating jaws. This asymmetrical jaw design delivers unmatched opening response. The result is a clean release that eliminates torque. Every time.

HOOK
STYLE

The biggest advantage of a string loop style release is that you can load it onto your string loop without having to look. Scott™ string loop releases are auto-cocking and ultra compact and produce very minimal string wear.

THUMB
BUTTON

Whether shooting paper, 3D, or bow hunting, some archers prefer hand held releases. These releases depend on the archer's back muscles, leading to consistency in anchoring.

BACK
TENSION

Back tension releases from Scott use the ideal pivot point for release. Put simply, this means you shoot better with consistent results. With your fingers free to get in the right position, you'll be comfortable shot after shot.

A R C H E R Y

ECHO

HYPERJAW™ STYLE RELEASE

Scott engineers spent hundreds of hours to develop and test dozens of geometry configurations. The result is a never before seen configuration in archery releases.

FEATURES

- Patent pending design
- HyperJaw™ Technology - independent jaws eliminate torque
- Off center design delivers high efficiency opening response
- Roller Trigger System for smooth, adjustable trigger action
- Shotgun style trigger has a familiar feel and increased finger placement options
- Ergonomic grip ridges allows for the same placement every time
- True fold back capability so you can tuck the head out of the way

RECON

ROLLER TRIGGER SYSTEM

Finding the sign. Glassing the fields. Playing the wind. Picking your spot. Don't ever doubt your Recon.

FEATURES

- Roller Trigger System for smooth trigger return
- Featuring the new, cam-lock fold back connector strap that tucks back out of the way
- Stainless steel auto closing jaw
- New, curved trigger design provides a distinct feel and increased finger placement options
- Ergonomic head helps with repeatable finger placement
- Adjustable trigger travel
- Proven Scott single caliper Roller Sear design
- Solid swivel connector with 5-hole spiral length adjustment

WILDCAT 2

SINGLE CALIPER RELEASE

The WildCat 2 builds on the popular design of the original Scott WildCat. It features an ergonomic head for comfort and performance when you need it most.

FEATURES

- Featuring the new, cam-lock fold back connector strap that tucks back out of the way
- Stainless steel single jaw
- Forward Knurled Trigger design maximizes draw length and bow speeds
- Adjustable trigger travel
- Proven Scott single caliper Roller Sear design
- Ergonomic head

FOX

SINGLE CALIPER RELEASE

The Fox is designed for smaller hands and wrist sizes. The overall small design makes this a great choice for compact bows.

FEATURES

- Solid swivel connector with patented 5-hole length adjustment
- Forward Knurled Trigger maximizes draw length
- Patented angled jaw design for better string clearance
- Downsized strap and buckle

QUICK-SHOT

SINGLE CALIPER RELEASE

The new Scott Quick-Shot release delivers unmatched accuracy and reliability in an affordable design. The Quick-Shot comes standard on our leather buckle strap and has an infinitely adjustable rope connector to fit any size archer.

FEATURES

- Delivers unmatched accuracy and reliability in an affordable design
- Single jaw caliper release featuring Scott's signature Roller Sear design for ultra-crisp trigger activation
- Comes standard with a comfortable leather buckle strap and rope connector that is infinitely adjustable to fit any archer

LITTLE GOOSE

SINGLE CALIPER RELEASE

A Scott™ Archery best seller. The Little Goose is a time-tested design trusted by archers around the world.

FEATURES

- Solid swivel connector with patented 5-hole length adjustment
- Forward Knurled Trigger maximizes draw length
- Patented angled jaw design for better string clearance

SHARK

DUAL CALIPER RELEASE

The Shark is the all-time best selling dual caliper release. A classic in the Scott™ lineup and still trusted by howhunters everywhere.

FEATURES

- Best selling dual caliper archery release
- Solid swivel connector with patented 5-hole length adjustment
- Forward Knurled Trigger maximizes draw length

CALIPER

DUAL CALIPER RELEASE

The Caliper is the original Scott dual caliper release. It continues to stand the test of time. If you are looking for an extremely reliable release in the field, choose the Caliper.

FEATURES

- The original dual caliper Scott Archery release
- Solid swivel connector with Scott's patented multi length adjustments
- Forward Knurled Trigger for superior grip and versatility

Also available with the Caliper Grip

TALON

HOOK STYLE RELEASE

The Talon is the straightest shooting hook style release available today. The Talon delivers 100% hook clearance - creating extreme accuracy and tunability.

FEATURES

- More tension adjustment than any other release
- 100% loop clearance - no more string "ticks"
- Fully adjustable trigger and travel adjustment
- Grip ridges for accurate pull
- Nine different length adjustments
- Interchangeable trigger (swept or straight)
- Auto reset returning hook
- Single sear design

PURSUIT

THUMB BUTTON HUNTING RELEASE

It's the moment of truth. You've been chasing this all season. Don't take chances with just any release. It's not just about trophies – it's all about the Pursuit.

FEATURES

- Target inspired multi-sear technology utilized to provide best-in-class crisp trigger feel
- Three and four finger extension included
- Fully adjustable trigger position
- Adjustable trigger travel
- Scott's rope connector delivers infinite length adjustment for any archer
- Ergonomic handle

SIGMA

THUMB BUTTON RELEASE

The Sigma offers a more comfortable feel with a new, more ergonomic handle. You can feel the difference at full draw, allowing you to be relaxed and confident. Ultimately, the proof is on the podium.

FEATURES

- Highly engineered for maximum accuracy
- Ergonomic shape provides ultimate feel
- Closed position full radius tapered handle for consistent hand position
- Fully adjustable trigger and travel adjustment
- Machined 440 stainless steel internal components

LONGHORN HEX

BACK TENSION RELEASE

The Scott™ Hex is the perfect release for those that want the comfort and confidence of a wrist strap with the accuracy of a back tension.

FEATURES

- Two finger design
- Open ergonomic full-radius handle
- Perfect option for someone wanting to learn to shoot a back tension release
- Pivoting roller design allows the archer to comfortably draw their bow without concern of premature misfiring
- Patented rope connector for infinite length adjustment

LONGHORN HUNTER

BACK TENSION RELEASE

This three finger back tension release is built for the hunter, based on our proven Longhorn platform. A tradition of winning translated into a release that you can take into the woods with confidence.

FEATURES

- Three finger design
- Open ergonomic full radius handle
- The answer for hunters wanting to shoot a back tension release
- Patented rope connector for infinite length adjustment

ASCENT

BACK TENSION RELEASE

The Ascent has a new, aggressive design that delivers comfort and confidence at full draw. Micro adjustments to travel and click distance deliver performance custom built for you.

FEATURES

- Patent pending dual sear locking design
- Micro adjustable travel
- Micro adjustable click distance
- Thumb peg for drawing assistance
- Stainless steel bracket
- Ergonomic, heavyweight stainless steel handle
- Available in three standard sizes: four finger large, three finger large, three finger medium

MINI ADVANTAGE

BACK TENSION RELEASE

Built on the incredible success of Scott's Advantage, this release puts the same stability and performance in a smaller package.

FEATURES

- Reduced handle size for smaller hands
- Light weight
- Stainless steel adjustable moon with click
- Three finger design
- Ergonomic tapered handle

ADVANTAGE

BACK TENSION RELEASE

With the Scott Advantage, you've found what you need to boost your score. Built from our most successful handle design, these tournament-focused back tension releases put all your focus where it needs to be – on aiming.

FEATURES

- Lightweight
- Three finger design
- Adjustable moon with click
- Thumb peg for drawing assistance

PRO ADVANTAGE

BACK TENSION RELEASE

Hand polished, machined brass shooting machines. The Pro Advantage features Scott's podium-producing accuracy and feel.

FEATURES

- Three finger design for large hands
- Open ergonomic full radius handle

BABYHORN

BACK TENSION RELEASE

The Babyhorn is a scaled down version of our popular Longhorn platform. It keeps your focus where it belongs – on aiming.

FEATURES

- Three finger design for small hands
- Open ergonomic full radius handle
- Interchangeable thumb pegs included

RECOMMENDATIONS OF USE

Your Scott™ Release may be used with a string loop, or directly off the bowstring in combination with an eliminator button or synthetic nocking point.

DO NOT USE ANY SCOTT™ RELEASE IN COMBINATION WITH ANY METAL LOOP DEVICE OR ALLOW THE RELEASE JAWS TO COME INTO DIRECT CONTACT WITH A METAL NOCK SET. Doing so will damage your Scott™ Release.
